### **KINGSPAN INSULATION TRIUMPH AT THE 2011 EXCELLENCE IN RECYCLING AND WASTE MANAGEMENT AWARDS**

The Partnership of Kingspan Insulation, E.ON, Wetherby Building Systems and Entec UK triumphed at the 2011 Excellence in Recycling and Waste Management awards ceremony which took place at the newly-refurbished Savoy Hotel in London in May.

The award for best Waste Management Initiative in the Commercial and Public Sector recognised the work undertaken by the partnership to deliver zero waste to landfill to a 206 house CESP project for Dudley Council.

The eighth annual awards organised by letsrecycle.com, honoured a range of achievements across the industry covering areas such as innovation and design in waste management and success in recycling and reuse.

John Garbutt, Marketing Director for Kingspan Insulation said “We were extremely delighted that the partnership received this award, especially as this project resulted from the interest of key personnel in each company in developing a better approach to waste management.”

Steve Einton, Editor of letsrecycle.com said “The judges were very impressed with the way that a waste material was being diverted from landfill and the carbon footprint reduced through energy recovery. It was also noted that a number of parties had come together to ensure the success of the project.”
